INDEPENDENT AUDITORS' REPORT

To the Board of Directors
The Baptist Foundation of Alabama
Montgomery, Alabama

Opinion

We have audited the accompanying financial statements of The Baptist Foundation of Alabama (a nonprofit organization), which comprise the statements of financial position as of December 31, 2022 and 2021, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Baptist Foundation of Alabama as of December 31, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Baptist Foundation of Alabama and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Adoption of New Accounting Standard

As described in Note 2 to the financial statements, in 2022, The Baptist Foundation of Alabama adopted the new accounting guidance in Accounting Standards Update 2016-02, *Leases (Topic 842)*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Baptist Foundation of Alabama's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Baptist Foundation of Alabama's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Baptist Foundation of Alabama's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

THE BAPTIST FOUNDATION OF ALABAMA
Notes to Financial Statements
December 31, 2022 and 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

The Baptist Foundation of Alabama (the Foundation) is a not-for-profit corporation, organized pursuant to the requirements of the Alabama Nonprofit Corporation Act. The Foundation was organized for the purposes of encouraging the making of gifts, benefactions, and other donations for the advancement, promotion, endowment, and maintenance of all institutions and agencies, whether religious, educational, eleemosynary, missionary, promotional, literary, or informational, recognized by and under the direction of either the Alabama Baptist State Convention (the Convention) or its affiliated local churches and district associations in carrying out their enterprises and undertakings.

Basis of Accounting

The financial statements of the Foundation have been prepared in accordance with accounting principles generally accepted in the United States of America. In preparing the financial statements, management evaluated subsequent events through August 4, 2023, the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Financial Statement Presentation

The Foundation reports contributions held for specified beneficiaries for which the Foundation has not been granted variance power as an asset and a liability. In addition, the Foundation reports information regarding its financial position and activities according to two classes of net assets: without donor restrictions and with donor restrictions.

Net assets without donor restrictions are those currently available at the direction of the Board for use in the Foundation's operations, invested in property and equipment, or designated by the Board of Directors or management to function as endowments.

Net assets with donor restrictions are those with donor stipulations for specific operating purposes, time restrictions or requirements to be held in perpetuity.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Revenue Recognition

Revenue from performance obligations can be satisfied at a point in time or satisfied over time. The Foundation's management services revenue and administrative services revenue is a result of performance obligations satisfied at a point in time, when services performed for the individuals are complete as of the month and quarter ended, respectively. The management services revenue and administrative services revenue is reported at the net realizable amounts from customers. In addition, the Foundation's contracts do not contain variable consideration and contract modifications are generally minimal. The Foundation's contracts have a single performance obligation as the promise to transfer the services is not separately identifiable from other promises in the contracts and, therefore, not distinct. The opening accounts receivable balance at January 1, 2021 totaled \$12,506.

Cash and Cash Equivalents

The Foundation considers all instruments with an original maturity of three months or less to be cash and cash equivalents. Cash equivalents consist of money market securities stated at fair value which approximates cost. Cash and cash equivalents are maintained at financial institutions, and, at times, balances may exceed federally insured limits. These amounts represent actual account balances held by financial institutions at the end of the period, and unlike the balances reported in the financial statements, the account balances do not reflect timing delays inherent in reconciling items such as outstanding checks and deposits in transit. The Foundation has never experienced any losses related to these balances.

Receivables

The Foundation reports receivables at net realizable value. Management determines the allowance for doubtful accounts based on historical losses and current economic conditions. On a continuing basis, management analyzes delinquent receivables and, once these receivables are determined to be uncollectible, they are written off through a charge against an existing allowance or against earnings. Based on management's review, no allowance for doubtful accounts was considered necessary at December 31, 2022 or 2021.

Property and Equipment

Property and equipment are carried at cost or, if donated, the approximate fair value at the date of donation, less accumulated depreciation and include expenditures which substantially increase the useful lives of existing property and equipment. Maintenance, repairs and minor renovations are charged to income as incurred. When property and equipment are retired or otherwise disposed of, the related costs and accumulated depreciation are removed from the respective accounts and any gain or loss on the disposition is credited or charged to income.

The Foundation provides for depreciation of property and equipment using the straight-line method designed to amortize costs over the following estimated useful lives: buildings and improvements, 7 to 39 years; furniture and fixtures, 3 to 10 years; and automobiles, 5 years.

Investments

The Foundation's investments consist primarily of funds invested in fixed-income (debt) and equity securities and alternative investments. Debt and equity investments with a readily determinable fair value are measured at fair value as of the statement of financial position date, and changes in fair value are recognized in the statement of activities as they occur. Equity securities that do not have a readily determinable fair value are carried at cost subject to adjustments for any observable market transactions on the same or similar instruments. All equity securities are evaluated at least annually for impairment.

Many of the Foundation's investments are converted to units of common funds administered by the Foundation. These common funds include the assets of charitable trusts and other specified types of assets authorized by law to be jointly invested, as well as general endowment funds. Investments held for others include obligations consisting of units of these common funds, as well as other specifically identified assets. These assets are segregated from general assets of the Foundation.

The units of common funds included in the Foundation's investments are reported at their net asset value, equal to the Foundation's pro-rata share of the total fair value of the underlying securities comprising the common funds. The common funds that are managed by the Foundation are exempt from registration requirements of both state and federal securities law.

The Foundation invests in several alternative investments for further diversification of its common funds. Alternative investments are more illiquid than traditional investments, often taking three to twelve months or more to redeem, pending the completion of the final year-end close of the fund.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investments - Continued

The Board of Directors and management of the Foundation have interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent donor stipulations to the contrary. As a result of this interpretation, the Foundation includes in amounts required to be maintained in perpetuity (a) the original value of gifts donated to the endowment funds, and (b) the value of subsequent contributions to the endowment funds and accumulations to the permanent endowment funds made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment funds that are not classified in permanently restricted net assets are classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by SPMIFA.

In accordance with SPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund, (2) the purposes of the Foundation and the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Foundation, and (7) the investment policies of the Foundation.

The Investment Committee is charged with the fiduciary responsibility of preserving and augmenting the value of the endowments, included in investments, thereby sustaining the ability to generate financial support to further the mission of the Foundation. The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that cover the spending policy payout percentage (generally 4.25% at December 31, 2022 and 2021; adjusted to 2.18% and 2.16% at December 31, 2022 and 2021, respectively, for endowments with deficiencies), administrative expenses, plus the rate of inflation while assuming a moderate level of investment risk.

Irrevocable Trust Agreements

The Foundation's right to remainder interests under irrevocable trust agreements are recognized as contributions with donor restrictions upon receipt of assets funding such agreements. The Foundation also recognizes contributions related to certain trusts that do not provide for specific beneficiaries and trust agreements that grant the Foundation variance power as related to the trust assets and/or income.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investments Held for Others

Investments held for others include resources held and managed by the Foundation in a fiduciary capacity for their respective beneficiaries. The Foundation is authorized to serve as trustee or agent for any institution or agency affiliated directly or indirectly with the Alabama Baptist State Convention. In addition, the Foundation serves as trustee for certain charitable trusts through which, for a period of time, trust income is distributed to the grantor or other non-charitable beneficiaries, and all, or a predetermined percentage, of the trust assets are designated for a qualified charitable purpose. The Foundation also serves as executor for various estates and custodial accounts that provide for a portion, or all, of the estate's assets to be given to an institution or agency affiliated directly or indirectly with the Alabama Baptist State Convention, the Foundation, or any other organization which has a primary purpose that is consistent with the purpose of the Convention or Foundation. Distributions of assets to the Foundation, if any, received through these estates are recorded as contributions at fair value when the estate is declared valid.

Concentration of Credit Risk

The Foundation maintains various investment accounts with a national investment firm to facilitate the investment, trading, and safekeeping of the various trusts' assets. In management's opinion, the safekeeping of these assets is adequately insured by the Securities Investor Protection Corporation (SIPC) and through supplemental insurance provided by the investment firm.

The Foundation investment allocations are predetermined by the Investment Committee and communicated to its investment brokerage firm. At December 31, 2022 and 2021, respectively, approximately 16% and 14% of total investments were invested in a limited partnership managed by one private equity firm.

Income Taxes

The Foundation is organized as a not-for-profit corporation under the Alabama Nonprofit Corporation Act. Additionally, the Foundation has been granted tax-exempt status by the Internal Revenue Service for income tax purposes. The Foundation is subject to unrelated business income tax (UBIT) only if it engages in activities subject to the UBIT regulations. Tax positions are initially recognized in the financial statements when it is more likely than not that the position will be sustained upon examination by the tax authorities. The Foundation had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements as of December 31, 2022 and 2021 based on an assessment of many factors including experience and interpretations of applicable tax laws.

Fair Value

The established framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is the price the Foundation would expect to receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs which are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 2 - ADOPTION OF NEW ACCOUNTING STANDARDS

The Foundation adopted Accounting Standards Update (ASU) 2016-02, *Leases (Topic 842)* during the year ended December 31, 2022. The amendments in this update are effective for fiscal years beginning December 15, 2021, through early application of the amendments in this update is permitted. Under the newly adopted update, the Foundation recognizes right-of-use (ROU) assets, representing its right to use the underlying asset for the lease term, and lease liabilities on the balance sheet measured on a discounted basis. The Foundation elected the package of practical expedients permitted under the transition guidance within the new standard, which among other things, allowed the Foundation to carry forward the historical lease classification. The Foundation applied the modified retrospective transition approach effective January 1, 2022.

NOTE 2 - ADOPTION OF NEW ACCOUNTING STANDARDS – Continued

The adoption did not have had a material impact on the Foundation’s statement of financial position or on the statement of activities. The adoption resulted in the recognition of right-of-use (ROU) assets and lease liabilities for operating leases.

NOTE 3 - LIQUIDITY AND AVAILABILITY

The following table reflects the Foundation’s financial assets, reduced by amounts not available for general use because of contractual or donor-imposed restrictions within one year. Such amounts include those set aside for long-term investing in the Board-designated endowment that could be drawn upon if the governing Board approves that action. However, amounts already appropriated from either the donor-restricted endowment or Board-designated endowment for general expenditure within one year have not been subtracted as unavailable. Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position date, consisted of the following at December 31:

The Foundation expects its endowment funds, over time, to provide an average rate of return of approximately 6.00% to 8.00% annually. Actual returns in any given year may vary from this amount. To satisfy its long-term, rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

The Foundation's policy of appropriating for distribution each year is 4.25% of its endowment fund's average fair value over the prior 16 quarters through the calendar year end preceding the calendar year in which the distribution is planned. The percentage is decreased to 2.18% (2.16% during the year ended December 31, 2021) for endowments that have declined and are consequently considered deficient. In establishing this policy, the Foundation considered the long-term expected return on its endowment. Accordingly, over the long term, the Foundation expects the current spending policy to allow its endowment to grow at the rate of inflation, currently an average of 2.00% to 3.00% annually, consistent with the Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investments.

NOTE 8 - ENDOWMENT - Continued

The fair value of assets associated with individual donor-restricted endowment funds may fall below the level necessary to maintain the purchasing power of the original gift plus additions. Deficiencies of this nature, called underwater endowment funds, resulted from unfavorable market fluctuations and continued appropriation for certain programs that were deemed prudent by the Foundation's Board of Directors. Underwater endowment funds consisted of the following at December 31:

	2022	2021
Fair value of assets	\$ 1,047,988	\$ 801,948
Original gift plus additions	1,268,675	965,759
	\$ (220,687)	\$ (163,811)

NOTE 9 - FAIR VALUE

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used during the years ended December 31, 2022 or 2021.

- *Cash and Cash Equivalents*: Valued at amortized cost which approximates fair value.
- *Investment Securities*: Valued based on quoted market prices, when available, or market prices provided by recognized broker dealers. Securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are stated at the last quoted bid price. Government-sponsored enterprises and commercial paper are stated at cost plus accrued interest, which approximates fair value.
- *Mortgages and Notes Receivable*: Valued based upon estimated cash flows adjusted for credit risk which are discounted using an interest rate appropriate for the maturity of the applicable loan.
- *Real Estate*: Valued based upon appraisals, which utilize inputs derived from or corroborated by observable market data.
- *Alternative Investments*: Valued based on the net asset value of the investment (or its equivalent) without further adjustment (unless management determines that the net asset value is deemed to be not reflective of fair value) since the alternative investments are investment companies that have calculated net asset value per share in accordance with the specialized accounting guidance for investment companies. The fair value of such investments generally represents the amount the Foundation would expect to receive if it were to liquidate its investment in the partnerships excluding any redemption charges that may apply.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Foundation's policy is to recognize transfers in and transfers out of the valuation levels as of the beginning of the reporting period. There were no transfers between valuation levels during the years ended December 31, 2022 or 2021.

The Foundation invests in limited partnerships and limited liability companies, which are commonly known as alternative investments. Such alternative investments are reported at the net asset value (NAV) per share (or its equivalent) practical expedient and are not categorized within the fair value hierarchy. The alternative investments make indirect and direct investments in complex financial instruments whose value is derived from an underlying security, commodity, or asset. These investments may contain elements of both credit and market risk. Such risks include, but are not limited to, limited liquidity, need for direct oversight, dependence on key individuals, emphasis on speculative investments, and transparency of portfolio composition. Because alternative investments are not readily marketable, their value is subject to some degree of uncertainty and, therefore, may differ from the value that would have been used if a ready market for such investments existed.

NOTE 10 - OPERATING LEASES

The Foundation has operating leases for copiers and printers. The Foundation's lease has a remaining lease term of three years. The weighted average remaining lease term associated with operating leases as of December 31, 2022, is 2.75 years.

As most leases do not provide an implicit rate in the lease, the Foundation uses the risk-free discount rate based on the information available at the commencement date in determining the present value of lease payments. The weighted average discount rate associated with operating leases as of December 31, 2022, was 5.00%.

NOTE 12 - RELATED PARTY TRANSACTIONS

The Foundation is affiliated with the Alabama Baptist State Convention and receives administrative support through the Cooperative Program of the State Board of Missions. The State Board of Missions provided \$192,429 and \$140,051 in administrative support to the Foundation during the years ended December 31, 2022 and 2021, respectively. The Foundation also administers certain assets for the State Board of Missions, whose value totaled \$11,565,279 and \$12,086,683 at December 31, 2022 and 2021, respectively.

NOTE 13 - FUNCTIONAL EXPENSES

The financial statements contain certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include salaries and employee benefits, office and travel expenses and depreciation. Management determined, based on the nature of the Foundation's operations and organizational structure, that the principal drivers of expenses are number of employees and square footage of office space. Therefore, the number of employees is used as the basis for allocating salaries and employee benefits and travel expenses, and the square footage of office space is used as the basis for allocating office expenses and depreciation.

NOTE 14 - RECLASSIFICATIONS

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.
